PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience designing and developing responsive web applications using HTML5, CSS3, JavaScript, React, and Bootstrap. Skilled in building reusable UI components, optimizing website performance, and delivering mobile-first user experiences. Experienced in collaborating with cross-functional teams, debugging front-end issues, and deploying production-ready applications. Passionate about creating scalable, accessible, and user-centric solutions while continuously learning modern web technologies.

PROFESSIONAL EXPERIENCE

Website Designer / Frontend Developer — Upturn India Technologies

Jun 2024 – Apr 2026

Nashik, MH

- Built responsive, component-based website UIs with HTML5, CSS3, and Bootstrap, ensuring pixel-accurate layouts, cross-browser compatibility, and mobile-first responsiveness across client projects.
- Implemented front-end performance and UI best practices — optimized assets and markup to reduce page load time and maintain consistent visual design across pages.
- Owned end-to-end deployment of front-end builds to live servers via cPanel and FTP, managing releases from design handoff through to production.
- Partnered with developers and content teams in an agile workflow to debug UI issues, enforce design consistency, and ship features on schedule.
- Applied on-page SEO fundamentals and responsive design patterns to improve site visibility, load performance, and usability.

Website Designer Intern — Upturn India Technologies

Dec 2023 – Jun 2024

Nashik, MH

- Translated wireframes and mockups into functional, responsive front-end pages using HTML, CSS, Bootstrap, and JavaScript.
- Supported front-end development and UI optimization for client-facing web applications, contributing to the full development lifecycle.
- Assisted with build and deployment tasks using VS Code and Sublime Text, gaining hands-on exposure to real-world front-end workflows.

KEY PROJECTS

CIB – Crime Investigation Bureau Website

2024

Tech: HTML, CSS, Bootstrap, JavaScript, PHP | Role: Frontend / UI Developer

Developed the front-end of a citizen-facing crime reporting platform, building an intuitive, responsive UI that streamlined report submission and the bureau's investigation workflow.

e-Gram Panchayat Portal

2023

Tech: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP | Role: Frontend / UI Developer

Built the responsive UI layer of a civic web application connecting village residents with local government, improving access to public services and announcements.

Emergency Medical Service System

2022

Tech: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP | Role: Frontend / UI Developer

Designed and implemented the front-end UI for a web app connecting users to hospitals, ambulances, blood banks, and bed availability, enabling fast access during medical emergencies.

TECHNICAL SKILLS
