SUMMARY

Results-driven Website Designer with 2 years of hands-on experience crafting responsive, visually compelling, and high-performance web interfaces. Adept at translating complex requirements into intuitive UI/UX designs using modern front-end technologies including HTML5, CSS3, Bootstrap, and JavaScript. Proven track record of delivering pixel-perfect designs that elevate user engagement and drive seamless digital experiences. Combines strong aesthetic sensibility with a solid technical foundation to bridge the gap between design and development. Passionate about building accessible, SEO-optimized, and scalable web solutions that make a real-world impact.

K. K. Wagh ACS & CS College Nashik, SPPU <i>Master of Computer Science, CGPA: 8.60</i>	Jun 2024 <i>Nashik, Maharashtra</i>
K. A. A. N. M. S. ACS College, Satana, SPPU <i>Bachelor of Computer Science, CGPA: 8.79</i>	Aug 2022 <i>Satana, Maharashtra</i>

EXPERIENCE

At Upturn India Technologies <i>Website Designer</i> - Designed and developed responsive websites for clients using HTML, CSS, and Bootstrap. - Improved website performance and user experience. - Collaborated with developers and content teams. - Fixed UI bugs and improved design consistency.	Jun 2024 – Apr 2026 <i>Nashik, Maharashtra</i>
Intern at Upturn India Technologies <i>Website Designer</i> - Created responsive layouts and UI designs. - Assisted in front-end development and design optimization. - Worked with design tools and web technologies.	Dec 2023 – Jun 2024 <i>Nashik, Maharashtra</i>

PROJECTS

CIB (Crime Investigation Bureau) HTML, CSS, Bootstrap, JavaScript, PHP - Engineered a full-stack Crime Investigation Bureau web portal that digitizes and streamlines the end-to-end crime reporting workflow, reducing manual paperwork and improving bureau response efficiency. - Designed an intuitive, citizen-facing interface enabling users to submit crime reports, track case status, and connect with the relevant department — enhancing public trust and civic engagement. Role: UI Designer	2024
e-Gram Panchayat HTML, CSS, Bootstrap, JavaScript, jQuery, PHP - Developed a civic digital platform bridging the communication gap between rural citizens and village councils (Gram Panchayats), enabling residents to raise issues, access services, and stay informed — all from a single web interface. - Implemented a clean, accessible UI optimized for low-bandwidth environments to ensure usability across rural demographics with varying levels of digital literacy. Role: UI Designer	2023
Emergency Medical Service System HTML, CSS, Bootstrap, JavaScript, jQuery, PHP - Built a life-critical emergency healthcare web application that aggregates real-time information on hospitals, ambulances, blood banks, and bed availability — empowering users to act swiftly during medical emergencies. - Designed a fast-loading, mobile-friendly interface with one-click access to emergency contacts and services, significantly reducing response time for users in crisis situations.	2022
